

Pupil Premium Strategy 2017/18

Middleton School SLT have analysed the specific barriers to learning for individual pupils and used this information to make decisions about the objectives to be addressed by Pupil Premium spending for the academic year 2017-2018. The total expected income for the Financial Year 17/18 is £44,880. All pupils at Middleton School benefit from the provision for those in receipt of Pupil Premium because the interventions, although prioritized for Pupil Premium are open to all.

The impact of the pupil premium spend will be measured in progress in literacy, numeracy and PSHE over the academic year.

The next review of the pupil premium strategy will be at the end of the academic year 17/18

| Record of Pupil Premium Grant Spending by Item / Project 2017-18 | | | | |
|--|---|---------|--|--|
| Year Group | Item / Project | Cost | Objective | Outcome |
| Whole School | Clubs | £2,500 | Developing social skills with a range of pupils in different year groups with similar interests. Improving access to learning through fun sessions. Clubs include: Fit for Life, IT, Choir, Cooking. | Improved self-esteem, confidence and social skills which supports progress across the curriculum. Particular impact is seen in PSHE. Opportunity to develop and learn new skills and to work alongside different children and staff. |
| Whole School | Additional Staff | £36,880 | Improving the opportunities for pupils to access differentiated learning within the curriculum. To provide smaller focussed groups in particular for phonics, reading and number. | Greater opportunity to access differentiated learning within the classroom or within specialist curriculum areas. |
| Whole School | Holiday Club (Various Dates) (Cost after parent contribution) | £4000 | To provide supervised play sessions where the structure supports children's ability to engage in meaningful activities. To develop hobbies and interests. | Opportunity to take part in structured engaging activities during the school holiday period. The activities provide pupils with an opportunity to have fun in a safe and familiar environment with trained known staff who understand their needs. This also provides valuable respite for parents and carers. |
| Whole School | Focus Weeks | £1,505 | Developing flexibility of thought, social skills and understanding through a range of activities based around a theme | Improved self-esteem and self-confidence and social skills which supports progress across the curriculum. Opportunity to experience alternative learning experiences with different groups of children and staff. |
