

Today's activity is for an M8 in Number. Today we are exploring adding (addition practically).

Can you find two small bowls in the house. A small object like pasta, cereal etc. Please use the number cards below to pick card that will total up 5 at first and then 10 if they are keen to continue.

Adult to choose 1 card and you will count out the objects into the first bowl. The adult will choose the second card and you will count out the objects into the second bowl. Then say the number sentence e.g. 2 add 3 ---- how many is there when we add them together. Then physically add them into 1 bowl. Together at first count out the objects one at a time. Repeat the sentence '2 add 3 equals -- → 5. Then repeat. This isn't limited to small items. Why not try these:

1		+	2		=
1	tin	add	2	tins	equals
2		+	4		=
2	stones	add	4	stones	equals
3		+	7		=
3	cars	add	7	cars	equals
5		+	4		=
5	grapes	add	4	grapes	equals
6		+	2		=
6	crisps	add	2	crisps	equals

Here are some addition videos with Rodd.
