

The Natural World

Out and about on the beach with Mrs Want

Here are some ideas to help with learning when your children are at the beach. There are three sections to this learning activity at three different levels. You may find your child can do parts of each one, just one section or all three!

Let's find:

Sand

Sea

Pebbles

Shell

Sea Grass

Seaweed

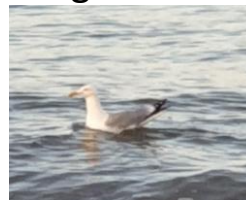

Driftwood

Sea Breaker

Seagull

Beach huts

To expand on the above why not try:

Grouping the pebbles into colours

Counting the beach huts

Naming the colours on the beach huts.

Finding a stone with a hole in

Naming the shapes

To continue expanding on the above
Putting pebbles in size order

Finding different plants
